EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Norman Latker on 09/21/2004.

The application has been amended as follows:

In claim 13, p. 8, "said sleeve further comprising a third sheet for keeping the second sheet regions in their pleated state both when the cells are inflated and deflated" has been deleted.

2. The following is an examiner's statement of reasons for allowance: although prior art of record shows a similar device having pressure cells formed between two sheets, it fails to teach or render obvious the limitation of "the pleats", which are formed as required by the claimed language "the sheets being sealingly fixed to each other by a plurality of longitudinal connection lines directed transversely to said lateral edges and by lateral connection lines extending along said lateral edges, thereby forming a plurality of longitudinal pressure cells each defined between a pair of connection lines. end the pair of connecting lines defining first and second strip regions on the respective first and second sheets, a width of the second strip region between said pair of connection lines, at least in the majority of the cells, being greater than that of the first strip region, to form pleats along the longitudinal connection lines, which are kept in their pleated states by said lateral connection lines".

Art Unit: 3764

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
